Easy Origami Box With Drawer

Simple step-by-step paper folding art. Ages 7+

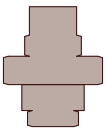

Watch the folds

1 Print the template

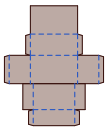

Print the page at 100% on colored paper. The dashed line around the box with a drawer is where you cut.

2 Cut it out

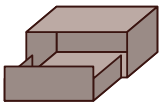

Cut around the whole shape, with a grown-up helping. Cut the drawer free along its top edge. Cut slowly along the straight lines.

3 Fold up the cabinet and the drawer

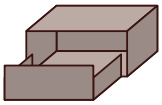

Fold up the back and sides, and fold the top closed. Fold up the drawer's sides and front, and slide it out.

4 Glue the tabs

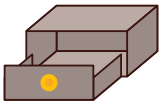

Put glue on each little tab and press it inside the corner next to it.

5 Stand it up

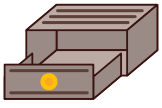

Set it on the table, with the drawer pulled out.

6 Draw the knob

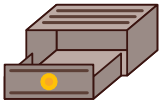

Marker 1: draw a round knob in the middle of the drawer front.

7 Draw the wood lines

Marker 2: draw wood lines on the top and on the drawer front.

8 Fill the drawer

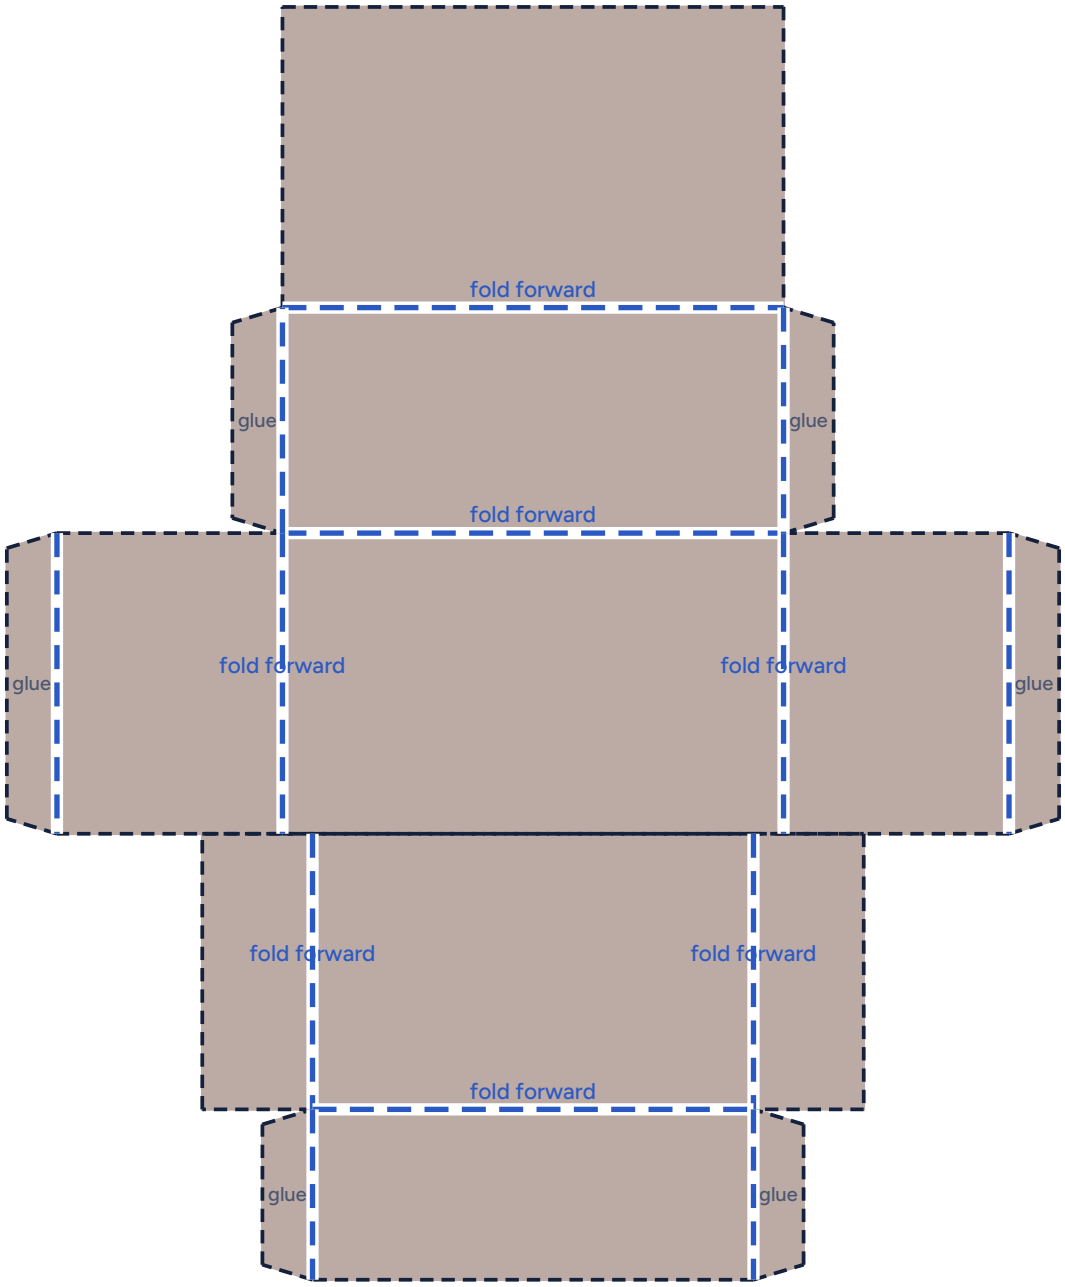

Marker 3: draw three little round things inside the drawer, like marbles.
