Easy Origami Envelope

Simple step-by-step paper folding art. Ages 4+ (6+ alone)

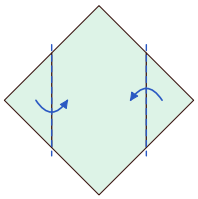

Watch the folds

1 Get a square

Use a 15 cm (6 in) square, colored side down. Turn it so a corner points up, like a diamond.

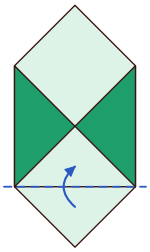

2 Fold in the side corners

Fold the left corner to the middle of the paper. Then fold the right corner to the middle. The two points should touch.

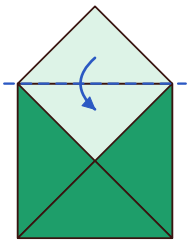

Tip: No ruler? Fold the paper in half both ways and open it. The creases cross in the middle.

3 Fold up the bottom

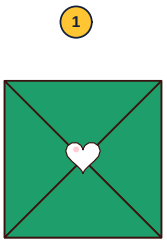

Fold the bottom corner up to the middle, so its point touches the other two points.

4 Close the envelope

Fold the top corner down to the middle to close the envelope. To send a note, slide it under the flap first.

5 Add a heart seal

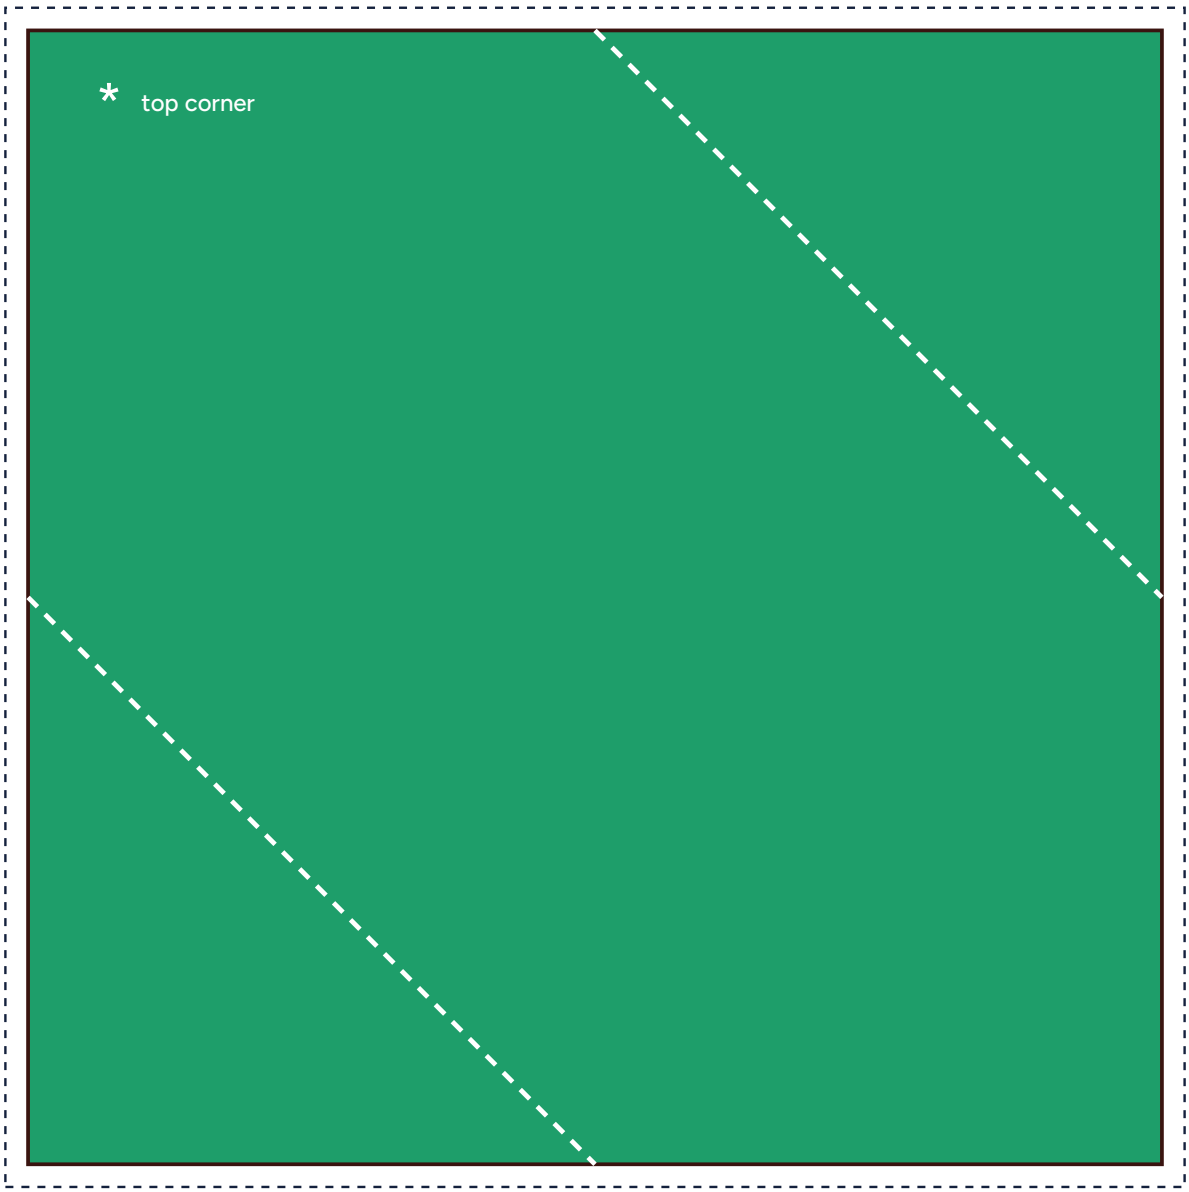

Marker 1: draw a white heart where the four points meet, like a sticker that seals it.

Ready-to-fold envelope paper

Cut out the square along the dashed line. That is the only cutting. Start with the printed side up. Turn it so the corner marked with a star points up, like a diamond, then follow the steps. The dashed lines show your first fold.

Watch the folds

cut on the dashed line

Print at 100% (actual size). The square is 15 cm (6 in). The back is white.

Color your own envelope

Color the finished model and practise the drawn details here.
