Easy Origami Stegosaurus

Simple step-by-step paper folding art. Ages 7+

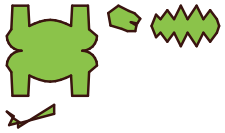

Watch the folds

1 Print the template

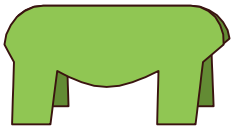

Print the page at 100% on colored paper. The dashed line around the stegosaurus is where you cut.

2 Cut it out

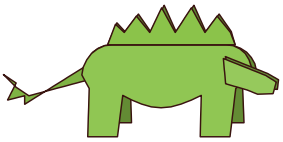

With a grown-up helping, cut out the body, the head, the row of plates and the spiky tail.

3 Fold the body

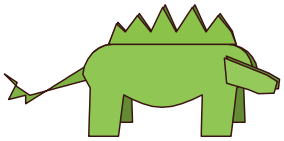

Fold the body in half along its back. Open it a little so the stegosaurus stands.

4 Add the head

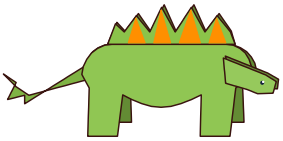

Fold the head along its top edge. Glue it over the front of the body, pointing down.

5 Add the plates and tail

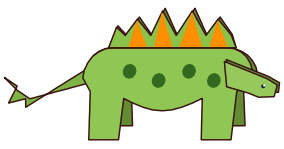

Fold the plates along their base and glue it along the back. Glue the spiky tail inside the back end.

6 Color the plates

Marker 1: color the plates orange and draw an eye on the little head.

7 Add the spots

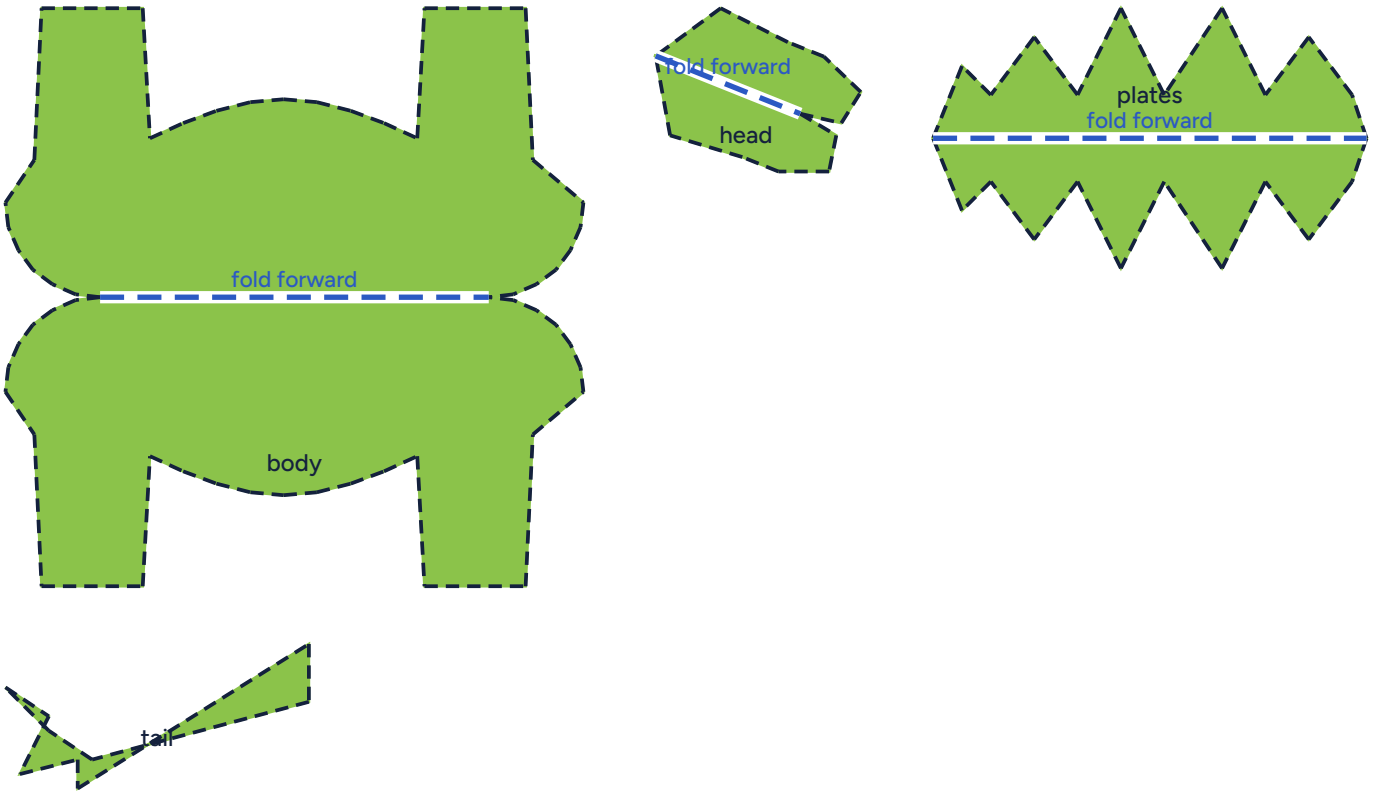

Marker 2: draw dark green spots on the body. Stomp!

Free for home and classroom use. Share the link, not the file.

Template for your stegosaurus

Print at 100% on colored paper or card. Cut along the dashed line with a grown-up helping. Fold on the blue lines forward and the red lines back.

Watch the folds

Print at 100% (actual size). Cut on the dashed line. A grown-up helps with the scissors.
