1 Get a square

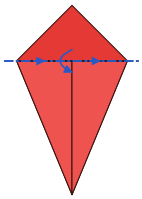

Use a 15 cm (6 in) square, colored side up. Turn it so a corner points up, like a diamond.

2 Make the kite

Crease the diamond from top to bottom and open it. Fold both bottom edges in to that line.

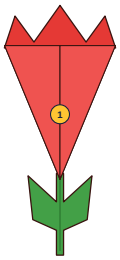

3 Fold the corner behind

Fold the extra corner behind, along the straight line across the kite. Now it is a tall triangle.

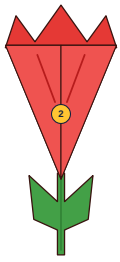

Tip: A dab of glue stick under the corner you folded behind keeps it flat, so the back looks neat too.

4 Glue on the petals and stem

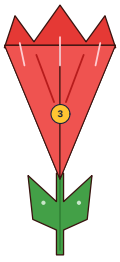

Marker 1: Cut out the petals and stem and leaves from the pieces page, with a grown-up helping, and glue them on.

5 Draw the petal lines

Marker 2: draw two curved lines to divide the petals.

6 Add the shine

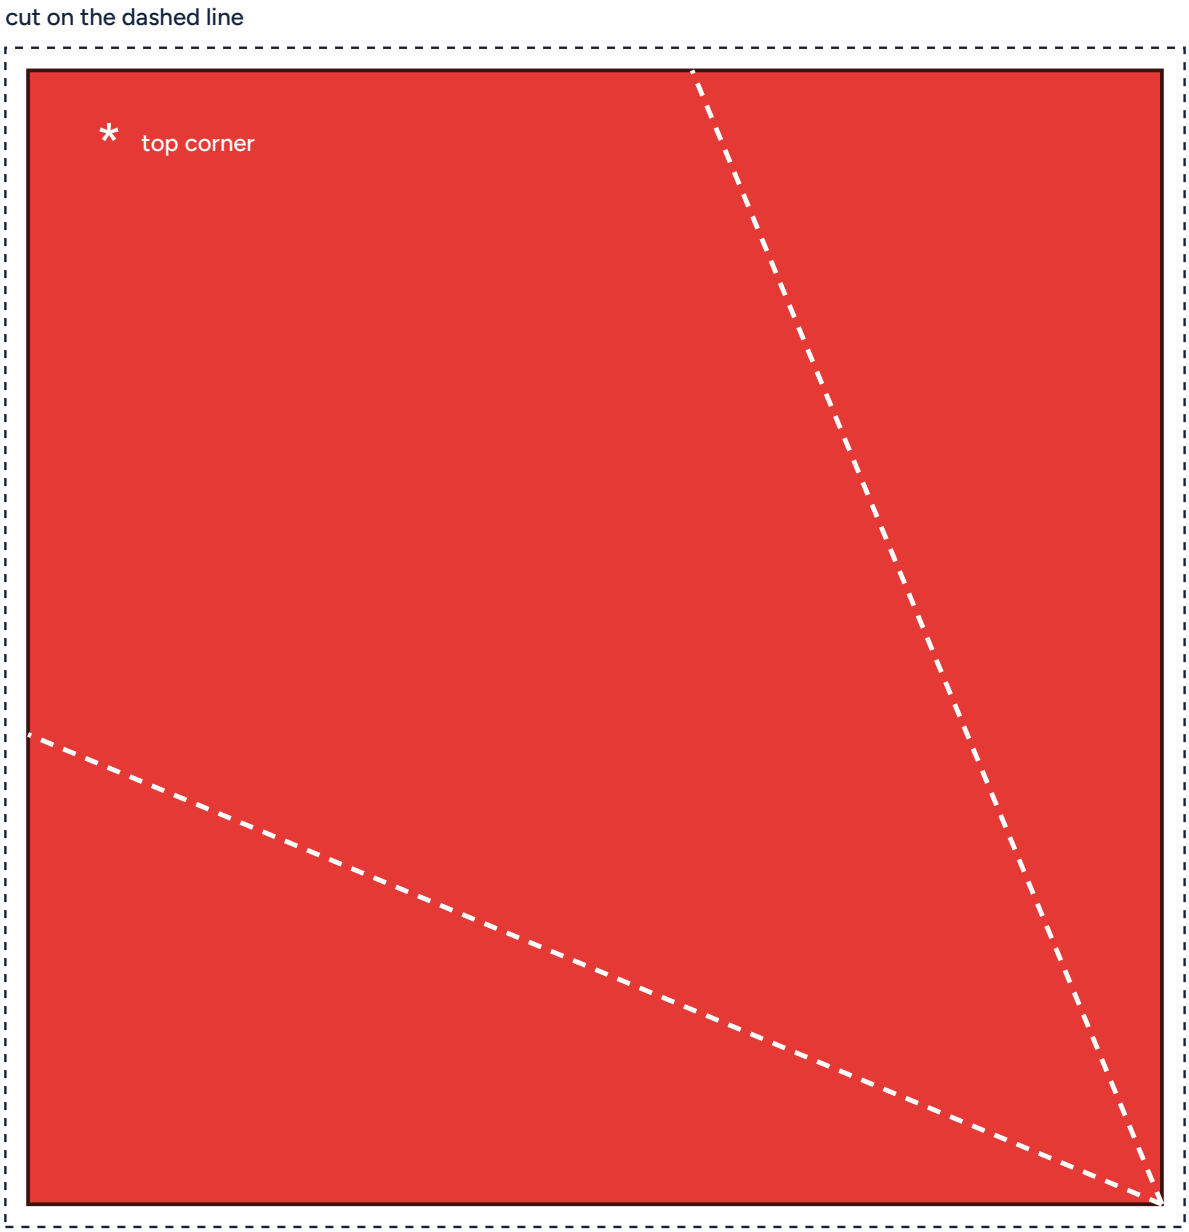

Marker 3: draw a shiny highlight on each petal, and dew drops on the leaves.
